WILDERNESS EXPERIENCE

WILDERNESS EXPERIENCE

The age of train travel sadly seems to be fading into the past. The Orient Express no longer connects Paris with Istanbul, and quality travel luggage is rapidly giving way to molded plastic boxes with handles. We feel our new line of soft luggage is a refreshing step into the past when handcrafted quality could be bought at reasonable prices and functional design was more important than fashion.

RAILROADERS

Railroaders are from an old design of travel luggage used for years by travelers around the world. An extremely convenient and organized piece of

luggage, RAILROADERS are made in two sizes out of 11.5 oz. waterproof cordura nylon with smooth running dependable nylon coil zippers.

Three handy outside pockets and a suitcase style main compartment make the RAILROADER a very easy piece of luggage to pack and a very organized one when packed.

A handy shoulder bag designed in the same style and built with the same old fashioned quality is a perfect complement to a set of RAILROADERS.
